PROBE ALLEGED LEAK TO STOCK GAMBLERS

Federal Grand Jury Hearing—"Conclusive" Evidence Is Claim

Washington, Dec. 30.—Evidence of the alleged "leak" in the supreme court, in which information has been gathered by the Department of Justice, will be placed in the hands of the District of Columbia grand jury for an investigation.

This announcement was made this afternoon by the Department of Justice.

"The Department of Justice today announces that it will early in January submit the results of its investigation into the alleged leak of the decisions of the supreme court to the grand jury in the District of Columbia."

The statement was prepared by Judge C. B. Ames, assistant attorney general, who declined to amplify it. Judge Ames said that no further details could be given at this time.

It is charged that large amounts were made in Wall Street by advance information on the decisions in the Southern Pacific oil land and the prohibition cases.

Thorough Investigation.

The Department of Justice investigation conducted by Judge Ames and William F. Flynn, chief of the bureau of investigation, and Frank Burke, his assistant, has now covered a period of nearly three weeks. According to the statements of officials in charge, the investigation has been thorough and has brought out evidence of a serious nature. This evidence, it is stated, has confirmed the original information and which was given to the Department of Justice by Martin E. Dow, editor and general manager of the International News Service.

It was stated today that the case involving as it does an examination into the alleged connection of a department of justice lawyer, only required that the final determination of whether a crime has committed should be made by a such as the district grand jury.

The grand jury investigation should take up all the evidence should the Department of Justice before John E. Laskey, United States attorney for the District of Columbia, in which charge will be made thoroughly and gently from that day three days.

FARM DEPARTMENT.

The average price of all crops on November 1 was 10 per cent higher than a year ago and 1 per cent higher than the average of the five preceding years. The average production is about 0.7 per cent lower than last year's aggregate production and 1.6 per cent higher than the average preceding five years.

Muscadine Grapes Differ.
There is a pronounced difference in varieties of muscadine grapes, their value for making of fresh juice and other products. This fact was brought out by the United States Department of Agriculture in its investigations on the utilization of national food supply. The Thomas, the chief of the Bureau of Industry, in a recent report, is best of the varieties now common for unfermented juice and high merit compared with other varieties for most other uses. Under cultural and pruning methods in the experiment at the Pen Test Farm of the North Carolina Department of Agriculture, at W. N. C., muscadines have produced excellent crops when unfavorable climatic conditions have caused other varieties and vines in surrounding neighborhoods to yield little or no fruit.

Learning Practical Things.
A boy or girl who earns money in an agricultural or home economics club by poultry keeping, gardening or canning, or who carries out the projects through the vocational school, is learning thrift in a practical way. Such enterprises must not interfere with school work or good physical development, for these will increase the earning power and happiness later in life.

Fruits and vegetables in your garden, which have been stored in boxes, baskets, barrels, and bins, should be sorted over to remove decayed specimens which may infect the rest.

Pumpkins and squash must be thoroughly dried and ripened to keep well. They should be stored from time to time with a cloth kept, not on a cellar floor, but on a shelf and well separated from other.

Wash Fruit Before Eating.
Dried figs and dates should be washed carefully before eating, as they have been exposed for an unknown length of time to possible contamination by flies and dirty hands. How many houses do oranges washed before they are brought to the table, or the lemon before they are sliced for tea or lemonade, or before the skin is grated for flavoring? Yet orange and lemon skins often are very dirty. Shell nuts purchased in the market should always be washed, scalded, and dried by a clean cloth before they are used.

Cakes, cookies and bread should be cooled after baking before being placed in other receptacles. The tin box or earthenware in which they are kept should be thoroughly scalded and aired. Dry three days in damp, hot weather, none too often. Portions of a former baking should never be stored with a new batch.

U. S. Butter Exports Small.

In spite of vast grazing lands in the United States, the country furnishes less than 1 percent of the butter fat that figures a world or international trade, according to statistics recently compiled by the U. S. Department of Agriculture. However, the same fact, expressed in terms of the total number of pounds of butter exported, does not look so insignificant, since the annual total for at least one year in each of the last six decades has approached 30,000,000 pounds. There has been marked fluctuation in this country's exports of butter, the amount frequently dropping to less than one-third of the total for the big years. The relation between domestic and foreign prices has been the determining factor in these changes. During the last few years our exports, small as they are relatively, have been going to 70 different countries, colonies, and dependencies.

Duration When Receipts.

Receipts of durum wheat at seven primary markets were about 33,300,000 bushels in the year ending June 30, 1919. During the last five years they were as high as 43,900,000 bushels in 1916 and as low as 16,100,000 bushels in 1918. Exports of this wheat ranged from about 24,800,000 bushels in 1916 to 6,600,000 bushels in 1918, and the exports of the fiscal year 1919 were about 18,300,000 bushels. This is a hard wheat with high gluten content when grown on dry-land farms, and is suitable for macaroni and other pasta products. Before the war its chief competitor

in the market of southern France and Italy, the principal destinations of the exports, was similar wheat from southern Russia.

Honey Yield Higher.

The average yield of surplus honey in 1919 was 59 pounds to a colony of honey bees, as estimated by the Bureau of Crop Estimates, United States Department of Agriculture. This is considerably above the average of 45 pounds in 1918, and of 41.6 lbs for the five years 1913-1917. The relative proportions in which the honey of the last two years was marketed are indicated by 59 for extracted honey, 31 for comb honey, and 10 for bulk honey. About one-third of the product goes to "outside" markets.

Wheat Barley and Oats Are Lighter.

The weight per measured bushel of wheat this year is 56.3 pounds, as against 58.8 pounds last year and 58.2 the 10-year average. The weight of measured bushel of oats is 31.2 pounds, as against 33.2 pounds last year and 46.5 pounds the 10-year average. The corresponding figures for barley are 45.2 pounds for this year, 46.9 pounds for last year, and 46.5 pounds for the nine-year average, according to the Bureau of Crop Estimates, United States Department of Agriculture.

The spoiling of a bushel of potatoes a dozen cantaloupes, a basket of grapes or a crate of oranges represents an absolute loss to the community. The loss must be borne both by the producer and consumer, and in many cases the distributor must share the burden.

IRISH PARLIAMENT MEETS

Despite official prohibition the Sinn Fein parliament met in Dublin and decided to appoint a national inspector of fisheries, arrange a civil service scheme for local offices and form a national court and a labor conciliation council. The American consul received copies of alleged instructions providing for the searching of the effects of American seamen who visit the island.

The Best Cough Medicine.

When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. H. Jones, a well known druggist of Cubrun, Ky., says, "I have used Chamberlain's Cough Remedy in my family for the past seven years, and have found it to be the best cough medicine I have ever known."

SEA PLANES SOLD.

Several hundred thousand dollars worth of the navy's sea planes have been sold, the navy department announces. The navy bureau of supply and accounts will furnish a catalog of what it has for sale. The commercial use of the planes, as given by Secretary Daniels, includes passenger travel between coastal points, forest fire patrol, cruising of timber and obtaining photographs of unexplored and undeveloped land. The need for storage room and the curtailment of the navy program by congress are given as the reasons for the sales.

Surgeons agree that in cases of cuts, burns, bruises and wounds the first treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borzone is the ideal antiseptic and healing agent. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by Ohio County Drug Company.

"LIBERTY" A TRADE MARK.

The bureau of aircraft production fixed on the name "Liberty" for the standard aircraft engine and its parts because of its great popularity. In June, 1919, the acting director of the bureau registered the name as a trade mark, the property of the U. S. and in use from June, 1917, on engines and parts. This is the first time the United States has registered as a corporation owning a trade mark.

Lame back may come from overwork, cold settled in the muscles of the back, or from disease. In the two former cases the right remedy is Ballard's Snow Liniment. It should be rubbed in thoroughly over the affected part, the relief will be prompt and satisfactory. Price 25c, 50c and \$1.00 per bottle. Sold by Ohio County Drug Co.

GOLD AND PLATINUM BEDS DISCOVERED IN CANADA

Toronto, Canada, Dec. 27.—Free gold and platinum have been discovered in gravel beds near Belleville, in Huntingdon Township, Hastings County, according to reports published here today. The discoveries are said to have been made on a farm of 100 acres, recently purchased by a contracting firm presumably for the sake of the immense gravel deposits. Several shafts have been sunk and other farms nearby have been purchased. There was a gold rush to Madoc, only a few miles away from Hastings County, fifty years ago.

FRIDAY, JANUARY 2

Nearly all of the eye witnesses to
sales of wood alcohol for beverage
purposes like Doctors' most grievous
mistakes, lie buried somewhere. At
least they are buried.

President Wilson passed his sixty-
third birthday Dec. the 28th. While
not an old man as age goes, yet we
doubt not, aside from his past ill-
ness from which he has not yet re-
covered, that he has aged fully a
score and a half in years since he first
became the nominee for President in
1912. He has lived under just such
a strain, during the most of the time,
that few men could bear.

The Christmas just past has been
one wholly devoid of the usual and
ordinary noise accompanying the
winter celebration. Aside from the
closing of stores and other business
places, nothing different from the
other 364 days was noted, other than
the fact that the great majority of
the absent ones came in to spend a
few days with the home people. Only
two or three persons were noticed
who were limbered up, and these, from
all appearances, were habituals and
the stuff fumbled was in all probability
not the "old fashioned red liquor."
Thus, as the Old Master would say,
"we see the effect of the tightening of
the tenacles of the Whiteribbons
and Silly Sallies."

Justice may be thwarted for a time,
in many cases perhaps, it may never
overtake the guilty in this life, but
we vorily believe that in the great
majority of instances it will react
mightily upon the heads of the wrong
doers and bow them down to earth as
a load unbearably and not to be
thrown off. There can be no ques-
tion of its being far better for one to
never go wrong, but there is some
question as to whether or not the
world gives more credit or expresses
more admiration for the person who,
when a serious wrong is committed
to in every manner possible manfully
right the wrong. When a man or
a woman goes down upon their knees,
in sack cloth and ashes as it were, in
an agonizing effort to undo, make
amends for and again set right upon
the pedestal from which he, or she,
by foul hands or otherwise, may have
dethroned it, the actor may hap pass
es through depths unrecognizable and
therefore unappreciated by some of
the near-sighted onlookers. But to
those whose vision may penetrate to
the bottom of the cavern traversed by
the man in his conquest, as he climbs
to light and struggles up the moun-
tain where he displaces wrong and
again puts right upon the topmost
peak, the world perhaps holds no
nobler or grander figure. For the
man or woman who does that thing
our admiration is unbounded. There
can be but little doubt of the fact
that the most sorrowful, the most re-
grettable incidents that have trans-
pired within our midst, recently and
otherwise, has been the culmination
of seasons of wrong doing. Sadder
still, yet true nevertheless, it often
happens that the wholly innocent
suffer for the wrongs of others, even
long after the violators of the law of
right have ceased to exist. The best
thing in the world to do, is to stay
right. The next most noble thing is
to right the wrong if one has been
committed, whether intentionally or
otherwise.

The Holidays passed off very

quiet and nicely at this place, every-
one seemed to have a good time in
spite of the pro-high-tide.

Fred Tatum says he is going up in
Canada before long. "Oh never mind
what he's going for."

The mines are running every day
now and looks as tho there will be
good work the balance of the winter.

Squire Q. B. Brown united in mar-
riage a couple at this place, on Xmas
eve and I will give his story of the
affair just as he gave it to me. Here
it is Verbatim:

Having been elected to the desira-
ble "posish" of justice of the peace
I was necosted on the 24th day of
December by a sleek looking young
man, who in silvery tones, requested
me to proceed to a neighbor's house
as he wished to enter into the holy
bonds of matrimony. Here was a
"Squeeler" I had never done any
thing of the kind, had no books or
forms, yet I was determined to do
things up strong and in a legal man-
ner I proceeded to the place, benring
in my arms one copy of the revised
statutes, one of Websters unabridged
Dictionaries, one large size Bible, a
small copy of the creed and articles
of faith of the Missionary Baptist
church, and one copy of Pope's essays
on man.

Having placed a table in the mid-
dle of the room and seated myself be-
hind it, I in trumf tones called the
case. With that the young man and
woman stepped up before me. Hav-
ing sworn them on the Dictionary to
answer well and truly all questions I
was about to ask, I proceeded. I
told the young man that being a sort
of stranger, I should have to ask him
if stronger, I should have to ask him
to give bail for the cost. Having heard
this so frequently in court I thought
it indispensable. He answered if I
meant the fee for performing the
ceremony, he would deposit then and
there. As I did not know exactly
what I did mean I magnanimously
waived that portion of the ceremony.
I then told him it would be neces-
sary to give bail to keep the pence,
this he said he was willing to do when
he arrived at home, and I then waived
that part also.

Having established to my satisfac-
tion that they wanted to get mar-
ried and that they were old enough to
enter into that blessed state, I pro-
ceeded to tie the knot. I asked him if
he was to take that girl to be his
wife. He said he was. I told him
I did not require haste in the answer
that he might reflect a few min-
utes if he wanted to. I told him
she looked like a fine girl and I had
no doubt she was, but if by any
chance the sequel proved that he had
been taken in I did not want to be
held responsible. I told him he must
love, honor and obey her as long as
she lived, he must not be "snappy"
around the house nor spit tobacco
juice on the floor, all of which he
promised faithfully to heed.

Now, said I, "Rosie (her name
was Rosie), you hear what Lawdlynn
says. Do you accept the invitation to
become his wife? Will you be lenient
toward his faults and cherish his vir-
tues. Will you never be guilty of
throwing furniture at his head for
slight offenses, and will you get
three meals a day without grum-
bling?" She said she would. I asked
them if they believed in the com-
mandments and they said they did
having read the creed and the articles
of faith as aforesaid, I exclaimed
"Lucelyn, take her, she is yours, I
cannot withhold my consent." Rosie,
when safe in the arms of your "Lu-
celyn" you can defy the scoff and
jeers of the world.

I then read a little from the "Essay
on Man" including the passage "man
wants but little here below, but
wants that little long." As a final to
the omen I delivered the following
"exordium" "Go in peace and sin no
more."

The generous young man, having
pined a "Bill" in my new villa, and
cadaverous palm I bade the happy
pair a final adieu.

STRAY STREAKS

(By Fluke McFluke.)

'Twas a dry Xmas, yes indeed very
dry thank you. Our old hulk hasn't
been so dry since the year 54.

Evidently the thieves who stole
Capt. White's starch were men with
families, or else they intend to keep
up a stiff front.

Some time ago a smooth guy sold
a lot of Texas people seats at \$15.00
each, to witness the world coming to
an end. A few days back a Kansas
farmer gave another shark \$20,000
for a half interest in the North pole.
The next thing in order is for some
enterprising fellow to sell some fool
person the equator, or maybe the
earth's Axis.

A couple of fellows went to Uncle
Dyer White's place the other day,
bought two bottles of Cook's Dry and
axed him if he objected to their mix-
ing a little whiskey with the two bot-
tles of harmless and kickless stuff.
Capt. White says "NO, I have no ob-
jection to your putting whiskey in
three bottles," as he ynnked another
from his ice chest. When the cus-
tomers announced that they had no
booze and were only jesting, White
immediately ordered them to leave his
premises and stny away.

Judge John Wilson's Sunday school
Class, composed of middle aged la-
dies, (and beyond) played him rather
poor in the selection and presenta-
tion of that Christmas present, when
they made it a nice box of candy. You
know it would be so easy and handy-
like for Levi, John Allen and Mrs.
Wilson to use the Judge's present
too, thereby lessening his chances of
entire appropriation as originally in-
tended. (?) Mrs. Wilson I believe, is
a member of her husband's class and
of course had nothing (?) to do with
making it a box of candy.

Some days ago a young army offi-
cer who had not been here for more
than two years chanced to meet an-
other young fellow in our office. Dur-
ing the absence of the officer the other
young fellow had gotten married.
The two being warm friends the of-
ficer very naturally asked the other
how he liked married life, when he
replied, "It's the only thing, Cap.,
great, you ought to get married, some
life" then in a subdued and awsome
whisper he said "really if you think
of taking such a step I want to talk
with you privately first." (For six-
bits we will keep names a profound
secret.)

Mr. Stinson Park, of Clear Run,
and Miss Golda Baughn, of Concord,
were married Saturday afternoon, and
the boys of Clear Run celebrated the
event with an old-fashioned charivari.

The Christmas tree and exhibition
at the Clear Run school house was at-
tended by a large crowd of patrons
and friends. The recitations were
beautiful and the pupils recited well.
Old Mr. Santa Claus and his wife
were there and promised to come
again next Christmas.

Mr. Harve Smith's little son, who
has had typhoid fever has recovered
and is able to be out again.

This is a beautiful day and the last
one in this year, 1919. The birds are
singing near my door. I believe
they think spring is here, poor, little
fluffy darlings will no doubt soon see
their dreams fade away. I wonder
how many of the boys who read the
Hartford Republican love and protect
as far as they can, the song birds
about their premises. If you will
plant some vine or tree near your
house that remains green throughout
the winter they will make it their
home and every warm, sunny day
you may hear them sing.

THE NORTHERN STATES HAVE ADOPTED THE 56" AUTO-TRACK WAGON

Get On the Right Track by Following the Auto Track

TODAY there are over 6,000,000 automobiles and motor trucks in use in the United States. The users of these machines are "on the right track"—and they now control the "track" of the road in every part of the country. This locality is no exception. Just sit down for an hour or so alongside any road leading to town and count the automobiles going by. Count also the farm wagons. You'll be surprised at how many more automobiles you'll see than wagons.

And you'll discover that the wagons that pull easiest and ride easiest are the ones that follow the auto track, traveling in the ruts moulded by the automobile. The hard-pulling, jolting, wide-track wagons (60 inches) bump along with one side in the rut and the other riding the ridge, causing the wagon tongue to whip forth and back and putting heavy strain on the gears, axles and wheels.

All Weber Wagons are standard auto-track—and we sell them. Which do you prefer—an auto-track wagon or an odd-track "out-of-track" wagon?

Come in and see us when you are in town even though you may not be in the market for a wagon just now, because we also handle a full line of farm machines, repairs, etc. You know where we are located.

Friends and Customers:—

Beginning January 1, 1920, we are going to inaugurate a new system. This is made necessary in adjusting the estate of J. D. Williams. In inaugurating this system we have taken into consideration your interests as well as ours. The system is as follows: On and after January 1st we are going to give a 5 per cent discount on all cash purchases, except feed and seeds. Amounts of \$10.00 and under must be paid for in cash at the time of purchase, amounts of over \$10.00, which our customers desire us to carry can be arranged as heretofore by giving us negotiable notes of suitable amounts and time, bearing 6 per cent from date but if paid within sixty days from date no interest will be charged. By inaugurating this system we can give our capital a quicker turnover and can therefore sell on a smaller margin of profit, and this we propose to do, giving our customers the benefit of this saving. We carry a full line of Implements, Wagons, Buggies, Stoves, power Washing Machines, home Lighting Plants, Gas Engines, Feed Grinders, Cream Separators, Hardware, Saddles, single and double Harness, Collars, Nails, Roofing, Feed, Stock Powders, Oils and Implement Repairs. In fact, our line will enable the farmers to do all their shopping at our store, and we want to assure you that when you buy here you are getting honest goods at honest profits. We request you to come in and look over our line and judge for yourself as to price and quality, and we will take pleasure in showing you through, whether you buy or not. Please bear in mind the above terms and arrange to take advantage of this 5 per cent discount, which on a year's purchase will make a good saving. Just take your purchases for 1919 and deduct 5 per cent and you will no doubt be surprised to find what it will amount to. Then don't fail to take advantage of this saving for 1920.

We thank you sincerely for your patronage and assure you that our every endeavor will be to merit your confidence.

With sincere good wishes for health and prosperity during the New Year, we are

Very truly yours,

Lay a bet on
rolling 'em with

PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes with Prince Albert is just about as joyous a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just roll to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-m-y, what a wad of smokesport will ripple your way every time you fill up!

Awaiting your say-so, you'll find tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and that classy, practical pound crystal glass humidor with sponge moistener top that keeps Prince Albert in such perfect condition.

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weakness they are the supreme remedy, as thousands have testified. FOR KIDNEY, LIVER AND STOMACH TROUBLE it is the best medicine ever sold over a druggist's counter.

When The Day Is Over

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening, bearing-down pains, irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in liquid or tablet form.
